WEBSITE DEVELOPER

As a highly skilled Web Developer, I am dedicated to building high-performance, user-centered applications that combine aesthetic appeal with functionality. With over 3 years of experience in Software engineering, I excel at transforming design visions into engaging, responsive interfaces that provide seamless user experiences across all devices and browsers. Skilled in both UI/UX design principles and technical implementation, I bridge design and development teams to ensure cohesive, accessible, and dynamic web applications. I prioritize efficient delivery and maintain a high standard of quality in all aspects of web development and Web administration.

WORK EXPERIENCE

Web Developer Intern

October, 2024 – Present.

VowChat | Remote

- Built and optimized the platform's landing page for responsiveness across desktop and mobile devices, focusing on user-friendly layouts and smooth interactions.
- Currently working alongside a co-developer to build the dashboard, which includes essential features like analytics, ticketing, and user management. Actively involved in creating intuitive interfaces and data displays that empower users to manage accounts and track key performance metrics efficiently.
- Continuously gaining hands-on experience with Next.js for client-side development, performance optimization and server-side rendering and Firebase for scalable authentication.
- Regularly collaborate with designers, back-end engineers, and senior developers to ensure cohesive, functional, and design-aligned UIs.

React Developer Intern

November, 2023 – February 2024.

Tekskillup / Remote

- Contributed to an email marketing platform and learning management system as part of a 7-person team, coordinating with designers and backend engineers for cohesive UI builds.
- Assisted with building a structured course navigation system, making it easy for users to access course content and track their progress.
- Enhanced my ability to identify and address technical challenges by analyzing user feedback and collaborating with team members on troubleshooting sessions. Adapted quickly to new technologies and processes, demonstrating flexibility and a continuous learning mindset under the mentorship of senior team members.
- Gained hands-on experience with Next.js for performance optimization, React for component-based development, and Supabase for scalable data management and authentication

FullStack Web Developer

February, 2022 – August, 2024

Freelancer | Remote

- Redesigned the auxiliary pages and dashboard of an investment website, leading to a 45% increase in website traffic and improved user engagement metric
- Developed a diverse portfolio of websites, including static and dynamic sites, landing pages, dashboards, and custom web designs, driving user engagement and meeting diverse client needs.
- Engineered interactive user interfaces and seamlessly integrated APIs for a high-performing website using React and Firebase, enhancing user experience and backend efficiency.

- Transformed complex client requirements into functional React applications, leading to successful projects and positive client feedback.

Programming tutor

September, 2022 – November, 2023

Private tutor l Enugu / Remote

- Introduced young learners to programming fundamentals, sparking interest in software engineering and nurturing future tech talent.
- Mentored and guided students, enhancing their coding skills and building their confidence, resulting in improved understanding and engagement in programming.

EDUCATION

Associates Degree in Software Engineering (BSSE)

March, 2023

Holberton Schools (ALX).

BS.C in Food Science & Technology

November, 2022

University Of Nigeria Nsukka.

SKILLS / TOOLS

Frontend Development

- **Languages & Libraries:** JavaScript (ES6+), HTML5, CSS, SASS/SCSS
- **Frameworks:** React.js, Vue.js, Next.js, Tailwind CSS, Bootstrap
- **Responsive Design:** Proficient in creating mobile-first, cross-browser applications, ensuring seamless experience across devices

API Integration

- Experience interacting with **RESTful APIs** to create dynamic and responsive user interfaces

Tools & Version Control

- **Version Control:** Git, GitHub
- **CI/CD & Containerization:** Knowledge of Docker and CI workflows
- **Backend & Databases:** Firebase, Supabase, Laravel, MySQL,

Other Skills

- Debugging, Testing, SEO Optimization

Soft Skills

- Team Collaboration: Strong communicator, adaptable to team environments
- Task Prioritization: Ability to effectively manage time and resources

HOBBIES

- Hair making
- Dancing
- Cooking
- Cloth making
- Baking
